Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a college counsellor	spot students who need support early	my data is hard to read at a glance	it is not visualised or filterable by gender or risk	overwhelmed and unsure I am helping the right students
PS-2	a faculty mentor	learn what drives student mental health risk	I only have guesses, not evidence	differences are not shown as simple comparisons	uncertain and worried support will target the wrong group
