Data Collection Plan Template

Section	Description
Project Overview	This project analyses a student mental health dataset in Tableau, builds dashboards and a Story that compare stress, depression, heart rate variability, risk and academic performance, and shows them on a Flask web portfolio. It supports students, educators and counsellors.
Data Collection Plan	No new data is collected. The data is taken from one provided source, the project dataset file from the Skillwallet course, and loaded directly into Tableau.
Raw Data Sources Identified	One source: Personalized_Psychological_Intervention_Dataset, with 1,000 student records and 16 fields.
